

SCOPE LIABILITY WAIVER FORM

I acknowledge and understand through the immersion process used by Liquid Transformations to transform my scope that flooding of the scope and or optics may occur. I do not hold Liquid Transformations responsible for any damage related to the submergence of the scope in water.

The dipping process involves total immersion in water. Consumers must make their decision to transform based on the original manufacturers warrantee.

I acknowledge that a representative from Liquid Transformations has explained the transformation process. I willingly allow this process to take place.

I give Liquid Transformations permission to transform my scope and fully understand the risks involved.
